Editor: Ivaïlo M. Mladenov

Aims and Scope
Geometry and Symmetry in Physics is a fully refereed, independent international journal. It aims to facilitate the rapid dissemination, at low cost, of original research articles providing background, perspectives, and useful sources of reference material. In addition to these contributions, the journal welcomes the extended versions of talks in the area of geometry of classical and quantum systems, delivered at the annual conferences on Geometry, Integrability and Quantization held in Bulgaria.

Indexing: The JGSP is indexed and/or abstracted in Mathematical Reviews and Zentralblatt MATH.

Library Exchange: The JGSP welcomes exchange agreements. Proposals for exchange should be sent either to the Editor-in-Chief or to Mrs. Madlena Kiziknova (exch1@cl.bas.bg) who is a head of the respective department of the Bulgarian Academy of Sciences.
