Geometry and Symmetry in Physics is a fully refereed, independent international journal. It aims to facilitate the rapid dissemination, at low cost, of original research articles providing background, perspectives, and useful sources of reference material. In addition to these contributions, the journal welcomes the extended versions of talks in the area of geometry of classical and quantum systems, delivered at annual conferences of Geometry, Integrability and Quantization held in Bulgaria.

Indexing: The JGPS is indexed and/or abstracted in Mathematical Reviews and Zentralblatt MATH.

Library Exchange: The JGPS welcomes exchange agreements. Proposals for exchange should be sent either to the Editor-in-Chief or to Mrs. Madlena Kizikova (exch1@cl.bas.bg) who is a head of the respective department of Bulgarian Academy of Sciences.
