Том 300, 2003 г.

List of publications by V. F. Lazutkin

1964

1. Expansion in Terms of Functions Connected with Watson Transform, *Third All-Union Symposium of Wave Diffraction*, Abstracts of Papers, M. (1964), 45–47. (In Russian)

1965

2. Parabolic Equation and Asymptotics of Eigenfunctions of Helmholtz equation for 3-dimensional Domains, — *Vestn. LGU, Ser. Phys. and Chem.* No. 22, (1965), 52–57. (In Russian)

1966

3. Expansion in Terms of Eigenfunctions of Nonselfajoint Operator Connected with Watson Transform, — *Vestn. LGU, Ser. Mat., Mech., and Astr.* No. 1 (1966), 38–50. (In Russian)

1967

4. Asymptotics of the Laplacian's Eigenfunctions Concentrated Near a Boundary of the Domain, — *J. of Comput. Math. and Math. Phys.* **7**, No. 6 (1967), 1237–1249. (In Russian)
5. Eigenfunctions Concentrated Near a Closed Geodesic, — *Probl. Math. Phys. LGU* vyp. 2 (1967), 15–25. (with V. M. Babich) (In Russian)
6. Eigenfunctions Concentrated Near a Closed Geodesic, in: 4th *All-Union Symposium of Wave Propagation and Diffraction*, Abstracts of Papers, Kharkov (1967), p. 3. (with V. M. Babich) (In Russian)
7. Construction of Asymptotic Series for Eigenfunctions of "Bouncing Ball" Type, in: 4th *All-Union Symposium of Wave Propagation and Diffraction*, Abstracts of Papers, Kharkov (1967), p. 4. (In Russian)
8. *Asymptotic Expansions for Laplacian's Eigenfunctions Concentrated Near Some One-dimensional Cycles*, LOMI AN SSSR, Manuscript of Thesis (1967), 176p. (In Russian)

1968

9. Construction of Asymptotic Series for Eigenfunctions of a "Bouncing Ball" Type, — *Trudy Steklov MIAN* **95** (1968), 106–118. (In Russian)
10. Formula for Eigenfrequences of Nonfocal Resonator with Cilindric Mirrors, Taking into Account the Aberration of the Mirrors, — *Optics and Spectroscopy* **24**, vyp. 3 (1968), 453–454. (In Russian)

1969

11. Spectral Degeneracy and "Small Denominators" in the Asymptotics of Eigenfunctions of "Bouncing Ball" Type, — *Vestn. LGU, Ser. Math.* **24**, No. 7 (1969), 23–24. (Transl.: **2** (1975), 103–116). (In Russian)

1970

12. Eigenfunctions with Given Caustic, — *J. of Comput. Math. and Math. Phys.* **10**, No. 2 (1970), 362–373. (In Russian)

1971

13. Asymptotics of a Series of the Laplacian's Eigenfunctions Corresponding to the Closed Invariant Curve of the "Billiard Problem, — *Probl. Math. Phys. LGU* vyp. 5 (1971), 72–91. (In Russian)
14. Short-wave Asymptotics of Eigenfrequences of Membrane. A Series of Eigenfrequences Constucted on Smooth Closed Invariant Curve of the "Billiard Problem in: *Transactions of the* 5th *All-Union Symposium of Wave Propogation and Diffraction*, Nauka, Leningrad (1971), pp. 134–143. (In Russian)
15. On the Asymptotics of the Eigenfunctions of the Laplacian, — *Soviet Math. Dokl.* **12**, No. 5 (1971), 1569–1572. (In Russian)

1972

16. Existance of the Continuum of Closed Invariant Curves for the Convex Billiard, — *Usp. Mat. Nauk* **27**, vyp. 3 (165) (1972), 201–202. (In Russian)
17. How for the Two–Mirror Resonator the Quality of the General Ellipticity of the System of Beams is connected with the Spectrum, — *Zap. Nauchn. Semin. LOMI* **25** (1972), 111–115 (with N. V. Svanidze) (In Russian)

1973

18. Construction of the Asymptotics for a Series of the Laplacian's Eigenfunctions Corresponding to the Elliptic Periodical Trajectory of the "Billiard Problem", — *Probl. Math. Phys., LGU* vyp. 6 (1973), 90–100. (In Russian)
19. The Existance of Caustics for the Billiard Problem in a Convex Domain, — *Math. USSR Izv.* **7**, No. 1 (1973), 185–214. (In Russian)
20. Asymptotics of the Eigenvalues of the Laplacian and Quasimodes.A Series of Quasimodes Corresponding to a Cystem of Caustics Close to the Boundary of the Domain, — *Math. USSR Izv.* **7**, No. 2 (1973), 439–466. (In Russian)
21. Existance of the Infinite Number of the Elliptic and the Hyperbolic Trajectories for the Convex Billiard, — *Funkt. Analiz Pril.* **7**, vyp. 2 (1973), 20–27. (with M. M. Dvorin) (In Russian)
22. Short-wave Asymptotics of Eigenfrequences of an Oscillating Membrane, Constructed According to a Family of Invariant Curves, in: 6th *All-Union Symposium of Wave Propagation and Diffraction*, **1**, Tzakhkadzor (1973), pp. 40–45. (In Russian)

1974

23. Asymptotics of Eigenfunctions of the Laplasian on the Torus, in: *Sb. Vopr. Dynam. Teor. Raspr. Seism. Voln* vyp. 14, Nauka, Leningrad (1974), pp. 84–108. (In Russian)
24. To Moser Theorem about Invariant Curves, in: *Sb. Vopr. Dynam. Teor. Raspr. Seism. Voln* vyp. 14, Nauka, Leningrad (1974), pp. 109–120. (In Russian)
25. Asymptotics of a Series of the Laplacian's Eigenfunctions Connected with the Family of Invariant Curves. I, — *Probl. Math. Phys. LGU* vyp. 7 (1974), 39–65. (In Russian)
26. Asymptotics of a Series of the Laplacian's Eigenfunctions Connected with the Family of Invariant Curves. II, — *Probl. Math. Phis. LGU* vyp. 7 (1974), 65–79. (with Yu. B. Yanushanetz) (In Russian)
27. Asymptotics of the Width of Gaps in the Spectrum of the Sturm–Liouville Operator with a Periodic Potential, — *Soviet Math. Dokl.* **15**, No. 2 (1974), 649–653. (with T. F. Pankratova) (In Russian)

1975

28. The Counterexample to the Hypothesis of V. I. Arnold about

Eigenoscillations of a Membrane, — *Zap. Nauchn. Semin. LOMI* **51** (1975), 134–137. (In Russian)

29. The Normal Forms and the Versal Deformations for the Hill's Equation, — *Funkt. Analis Pril.* **9**, vyp. 4 (1975), 41–48. (with T. F. Pankratova) (In Russian)

1976

30. Asymtotics of a Series of the Laplacian's Eigenfunctions Connected with the Family of the Invariant Curves. III, — *Probl. Math. Phys. LGU* vyp. 8 (1976), 92–109. (with Yu. B. Janushanetz) (In Russian)

1977

31. The examples of the Diffeomorphisms of the Circle, — *Vestn. LGU, Ser. Mathrm., Mech., and Astronomy* No. 1 (1977), 49–55. (In Russian)
32. Variaton of the Wave Equation, in: 7th *All-Union Symposium of Wave Propagation and Diffraction*, Abstracts of the papers, **2**, Moscow (1977), 26–29. (with T. F. Pankratova) (In Russian)
33. The Kolmogorov–Arnold–Moser(KAM)-Theory and Eigenfunctions of the Laplacian, Thesis II Manuscript. LOMI, Leningrad (1977), 292p. (In Russian)

1978

34. The Esimates of the Widths of Gaps in the Spectrum of the Laplasian, — *Dokl. Akad. Nauk SSSR* **245**, No. 1 (1979), 20–23. (Transl. in Soviet Math. Dokl.) (In Russian)

1979

35. About an Estimate of $N^*(\lambda)$ for a Series of Quasimodes of the Laplacian, — *Probl. Math. Phys. LGU* vyp. 9 (1979), 64–75. (In Russian)

1980

36. A Convex Billiard and Eigenfunctions of the Laplasian, — *Usp. Mat. Nauk* **35**, vyp. 1 (1980), 234 p. (In Russian)

1981

37. A Complex Eikonal and Losses in the Open Resonators, in: 8th *All-Union Symposium of Wave propagation and Diffraction*, Abstracts of the Papers **1** M. (1981), pp. 209–212. (In Russian)
38. Investigation of the Spectrums of a “Bouncing Ball” and of a “Whispering Gallery, in: 8th *All-Union Symposium of Wave propagation and Diffraction*, Absracts of the Papers. M. (1981) pp. 220–223. (with T. F. Pankratova, M. B. Tabanov, D. Ya.Terman) (In Russian)
39. About an Estimate of a Remainder in the H.Weyl’s Formula, — *Funkt. Anal. Pril.* **15**, vyp. 4 (1981), 84–85 (with D. Ja. Terman) (In Russian)
40. Diffraction Losses in the Open Resonators. Geometrical Point of View, — *Dokl. Akad. Nauk SSSR* **258**, No. 5 (1981), 1089–1092. (Transl.: Soviet Math. Dokl.) (In Russian)
41. *A Convex Billiard and Eigenfunctions of the Laplacian*, A monograph. LGU (1981), 196 p.
42. About a Number of Quasimodes of a “Bouncing Ball” Type, — *Zap Nauchn. Semin. LOMI* **117**, Nauka, Leningrad (1981), 172–182. (In Russian)

1983

43. Radiation of an Open Resonator Formed by the Slightly Curved Cylindric Mirrors, in: X *All-Union Accustic Conference*, Sec. A, Papers, Moscow (1983), pp. 13–16. (with M. B. Tabanov) (In Russian)
44. Asymptotics of the Nonphysical Eigenfunctios of the Laplacian in a Domai n Similar to a Strip, — *Usp. Mat. Nauk* **38**, vyp. 5 (1983), 163–164 (with M. B. Tabanov) (In Russian)
45. *Asymptotic Formulas for the Losses on Radiation from the Qpen Resonator Formed by the Slightly Curved Cylindric Mirrors. I*, Dep. VINITI 3828–83, 11.07.1983, 57p. (with M. B. Tabanov) (In Russian)
46. *Percival Variational Principle for Invariant Measures and Commensurate-Incommensurate Phase Transitions in One-Dimensional Chains*, Dep. VINITI 5341–83, 27.09.1983, 21p. (with D. Ja. Terman) (In Russian)

1984

47. Percival Variational Principle for Invariant Measures and Com-

mensurate-Incommensurate Phase Transitions in One-Dimensional Chains, — *Comm. Math. Phys.* **94**, No. 4, 511–522 (1984) (with D. Ja. Terman)

48. *The Separatrices Splitting for the Stadard Chirikov's Map*, Dep. VINITI 6372–84, 24.09.1984.

1985

49. *The Separatrices Splitting for a Standard and a Semi-Standard Map*, Dep. VINITI 4027–85, 10.07.1985, 30 p. (with M. B. Tabanov, I. G. Shakhmanski)

50. A Complex Quantation in Proplemes with Radiation, Modes Splitting and in Periodical Wavegides, in: IX *All-Union Symposium of Wave Propogation and Diffraction*, Telavi, Abstracts of the Papers **2** (1985), pp. 522–525. (with M. B. Tabanov)

1986

51. A Complex Billiard, — *Probl. Mat. Phys. LGU* vyp. 11 (1986), 138–164. (In Russian)

52. *The Separatrices Splitting for the Standard Map. All-Union Conference "Modern Questions of Mechanics and Tecnology"*, VINITI, Moscow (1986), p.78 (with M. B. Tabanov, I. G. Scakhmanski) (In Russian)

53. The Semi-Standard Map as a Complex Dynamical System — *Usp. Mat. Nauk* **41**, vyp. 4 (1986), 206. (with M. B. Tabanov, I. G. Shakhmanski) (In Russian)

1987

54. The Splitting of Separatrices for a Standard Family of Area-Preserving Transformations — *Probl. Mat. Phys. LGU* vyp. 12 (1987), 32–41. (in Russian) (English translation in Amer. Math. Soc. Transl. (2) **157** (1993), 27–35.)

1988

55. Quasi-Classical Asymptotics of Eigenfunctions, in: *Sovr. Probl. Matematiki.. Fundam. Napr.*, VINITI M. **34** (1988), pp. 135–174. (In Russian)
56. The Complex Separatice Splitting —*Funct. Anal. Pril.* **22**, vyp. 2 (1988), 83–84. (In Russian)
57. About a Signature of a Symmetrical Inverse Matrix — *Mat. Zametki* **44**, No. 2 (1988), 202–207. (In Russian)

1989

58. The Analytical Integrals of a Semi-Standard Map and the Splitting of Separatrices, — *Algebra Analiz* **1**, vyp. 2 (1989), 116–131. (In Russian)
59. The Separatrices Splitting and the Width of the Instability Zone for the Standard Chirikov's Map. Nonlinesr World, in: *Proceedings of the* IV *International Workshop on Nonlinear and Turbulent Processes in Physics* Vol. 2, Naukova Dumka, Kiev (1989), pp. 284–286
60. Splitting of Separatrices for Standard and Semistandard Mappings — *Physica D* **40** (1989), 235–248.

1990

61. Mathematical models of critical phenomena, in : *Physics on the Threshold of New Discoveries*, (Ed. L. N. Labzovskii) LGU, Leningrad (1990), pp. 279-301. (in Russian)
62. On the width of the instability zone near the separatrices of a standard mappinng, — *DAN SSSR* **313**, No. 2 (1990), 268–272. (English translation in Soviet Math. Dokl. **42**, No. 1 (1991), 5–7).
63. Exponentially small splitting of separatrices in Hamiltonian systems, in: *Nonlinear Oscillations of Mechanical Systems* II *All-Union Conference*, Abstracts of of papers. Part 1 (September 1990), Gorkii (1990), p. 50. (with V. G. Gelfreich and M. B. Tabanov) (In Russian)

1991

64. Exponentially small splittings in Hamiltonian systems, — *Chaos* **1**, No. 2 (1991), 137–142. (with V. G. Gelfreich, M. B. Tabanov)
65. *Exponential Splitting of Separatrices and an Analytic Integral for the Semistandard Map*, Preprint, University Paris VII (1991), 52p.

66. *Resurgence of the Separatrices of the Semistandard Map*, Preprint ETH, Zuerich, (July 1991), 14p.

1992

67. An analytic integral along the separatrix of the semistandard map: existence and an exponential estimate for the distance between the stable and unstable separatrices — *Algebra Analiz* **4**, vyp. 4 (1992), 115–149. [Reprinted in St.Petersburg Math. J. **4**, No. 4 (1993), 721–748.]
68. Fern-like structures in the wild set of the standard and semistandard maps in C**2 — *Int. J. of Bifurcation and Chaos* **2**, No. 2 (1992), 353–370 (with V. G. Gelreich, C. Simo, M. B. Tabanov)
69. *Refined formula to separatrix splitting for the standard map*, Warwick Preprints: 59/1992 (1992), 31p. (with V. G. Gelfreich, N. V. Svanidze)

1993

70. Resurgent approach to the separatrices splitting in: EQUADIFF 91 *International Conference on Differential Equations*, Vol. 1, Barcelona, Spain (26–31 August 1991), Eds. C. Perelló, C. Simó, and J. Solá-Morales, World Scientific, Singapore, New Jersey, London, Hong Kong (1993), pp. 163–176.
71. *KAM Theory and Semiclassical Approximation to Eigenfunctions (with Addendum by A. I. Shnirelman)*, Springer Verlag, Berlin, Heidelberg, New York (1993), Ergebnisse der Mathematik und ihrer Grenzgebiete: 3. Folge, Band 24. IX+387pp.
72. *Some remarks concerning the main problem of Hamiltonian dynamics with two degrees of freedom*, Université de Nice-Sophia-Antipolos, U.R.A au C.N.R.S. no 168- Jean-Alexandre Dieudonné. Prépublication no. 343 (Mai 1993), 16p.
73. *Model map and its separatrices*, Unpublished paper Como March (1993).
74. *Existence of ferns*, Universitat de Barcelona. Mathematics Preprint Series No. 137 (June 1993), 16p.
75. *Separatrix splitting via résurgence, technical paper* Unpublished paper, Barcelona (June 1993).
76. *Complexified quantum rules* Séminaire de théorie spectrale et géométrie no. 11, année 1992–1993, Institut Fourier, Université de Grenoble 1, pp. 133–145. (with D. Ya. Terman)

77. *Recent results on the separatrix splitting for the standard map* Séminaire de théorie spectrale et géométrie no. 11, année 1992–1993, Institut Fourier, Université de Grenoble 1, pp. 157–165.
78. *The growth of the norms of the products of random matrices*, Warwick Preprints: 80/1993 (December 1993), 12p.

1994

79. A refined formula for the separatrix splitting for the standard map — *Physica D* **71**, Nos. 1, 2 (1994), 82–101. (with V. G. Gelfreich, N. V. Svanidze)
80. *Positive entropy for the standard map.* I, Prépublications 94-47 Université de Paris-Sud Mathématiques Bâtiment 425 91405 ORSAY France (1994), 34p.

1995

81. *Jumping Folds Phenomenon in Area-Preserving Maps*, PennState, Department of Mathematics, Report No. PM 190 (May 1995).
82. *Interfering combs and a multiple horseshoe*, Universität Augsburg, Institut für Mathematik, Report No. 333 (1995).
83. Positive entropy for the standard map — *Russian Math. Surv.* **50**, No. 4(304) (1995), p. 85 (in Russian)
84. *A stable foliation to infinity in the complexified phase space of the standard map* Universitat de Barcelona, Mathematics Preprint Series No. 183 (November 1995), 30p. (with M. Pankratov)

1996

85. *Homoclinic orbits in the complex domain*, Universitat de Barcelona, Mathematics Preprint Series No. 203 (May 1996), 30p. International Journal of Bifurcation and Chaos **7**, No. 2 (1997), pp. 253–274. (with C. Simó)

1997

86. Interfering combs and a multiple horseshoe, — *Regular and Chaotic Dynamics* **2**, No. 2 (1997), 3–13.
87. Visualization of a hyperbolic structure in area-preserving maps — *Regular and Chaotic Dynamics* **2**, Nos. 3/4 (1997), 47–61. (with A. Giorgilli, C. Simo)

1998

88. *Splitting of separatrices for the Chirikov's standard map* (59K, AMS-TeX) mp_arc@fireant.ma.utexas.edu has been archived. The number is 98-421, and the checksum 12010.

1999

89. Existence and visualization of a hyperbolic structure in area-preserving maps in: *Proceedings of the Second Brussels Meeting on Integrabilty and Chaos in Discrete Systems* (Brussels, 2–6 July 1997) Chaos, Solitons and Fractals. Vol. 11, Issue 1–3 (08-Oct-1999), pp. 237-240. Chaos, Solitons and Fractals 11 (2000), 237–240.
90. Making fractals fat, *Regular and Chaotic Dynamics* **4**, No. 1 (1999), 51–69. (Universitat de Barcelona. Mathematics Preprint Series No. 258, October (1998), 22p.)
91. Semiclassical Asymptotics of Eigenfunctions, in: *Encyclopaedia of Mathematical Sciences*, Vol. 34, Partial Differential Equations V (1999), pp.133–171.

2000

92. Existence and visualization of a hyperbolic structure in area-preserving maps in: *Proceedings of the Second Brussels Meeting on Integrabilty and Chaos in Discrete Systems* (Brussels, 2–6 July 1997). Chaos, Solitons and Fractals, Vol. 11, Issue 1–3 (08-Oct-1999) pp. 237–240 Chaos, Solitons and Fractals 11 (2000), 237–240.
93. Some remarks on the problem of ergodicity of the Standard Map, — *Phys. Lett. A* **272** (2000), 359–367. mp_arc@fireant.ma.utexas.edu has been archived. The number is 99–287 (with A. Giorgilli).
94. Existence of complex homoclinic points — *Regular and Chaotic Dynamics* **5**, No. 4 (2000), 383–400 (with N. N. Igotti)
95. *A remark on "Some remarks on the problem of ergodicity of the Standard Map"* (13K, LATeX 2e) mp_arc@fireant.ma.utexas.edu has been archived. The number is 00–519, and the checksum 64099.

2001

96. Splitting of separatrices: perturbation theory and exponential smallness — *Uspekhi Mat. Nauk* **56**, No. 3(339) (2001), 79–142 (with V. G. Gelfreich).
